- Spelling:**
- Check spelling as you type in new projects
 - Check grammar with spelling in new projects
 - Correct spelling errors as you type

- Auto-Capitalization:**
- Fix capitalization of sentences
 - Capitalize 'i'

- Auto-Completion:**
- Suggest completions as you type
 - In script mode only
 - Only suggest completions from custom auto-complete lists

- Substitutions:**
- Use smart quotes (" ")
 - Replace double hyphens with em-dashes
 - Replace triple periods with ellipses
 - Disable smart quotes, em-dashes and ellipses in script mode
 - Superscript ordinals (1st, 2nd, etc)
 - Automatically detect web addresses
 - Automatically detect [[Scrivener links]]
 - Symbol and text substitution

To edit substitutions and smart quote types, use the System Text Preferences:

[System Text Preferences...](#)

Note: Excepting the main editor, not all text views in Scrivener support all substitution types.
